

Plugin & Theme White Label

The **1500+ Plugin & Theme White Label Pack** is a powerful solution for WordPress users who want instant access to a wide library of premium plugins and themes—all from their own dashboard. This white-label plugin allows you to offer or install high-quality tools on your website without branding, making it ideal for agencies, developers, or individual site owners. Once installed, you can browse and install over 1500 plugins and themes directly from the WordPress admin area. The plugin includes automatic updates and license control.

How to Install and Use Your WordPress Plugin & Theme Manager

Welcome! You've received a custom WordPress plugin that gives you access to a library of over **1500+ premium plugins and themes**—all from right inside your WordPress dashboard. This guide will walk you through how to install and start using it in just a few minutes.

Step 1: Download the Plugin File

- Check your email for a message from **Buy Applications**.
- Download the attached **ZIP file** - this is your custom plugin package.
- Save the file somewhere you can easily access (like your desktop or downloads folder).

Step 2: Install the Plugin on Your WordPress Site

1. Log into your WordPress admin dashboard (e.g., `yourwebsite.com/wp-admin`).
2. In the left-hand menu, go to **Plugins** → **Add New**.

3. At the top of the page, click the **“Upload Plugin”** button.

4. Click **“Choose File”** and select the ZIP file you downloaded earlier.

If you have a plugin in a .zip format, you may install or update it by uploading it here.

5. Click **“Install Now”** and wait for the upload to finish.
6. Once installed, click the **“Activate Plugin”** button.

Step 3: Access Your Plugin

- After activation, you'll see the plugin appear in the WordPress left sidebar.
- Click on the plugin's name to open its dashboard.

Here, you'll see:

- Your plugin's **name, description, author info, and logo** (if provided).
- A large searchable **table of 1500+ plugins and themes** available for install.

Step 4: Install Plugins and Themes

- Browse or search through the available plugins and themes.
- Each item includes a name, description, version, and install/download button.
- Click **“Install”** on any item to instantly add it to your WordPress site.

☐ Updates are automatic — no need to manually update the items you install.

Tips & Notes

- This plugin is licensed for your specific website only.
- You don't need to register or pay again for the individual items—everything is included under your subscription.
- If you ever deactivate the plugin or subscription, access to the plugin library may be paused.
